The President
The White House
Washington, DC 20500
Dear Mr. President:
In accordance with the provisions of Title 13, United States Code, Section 141(b), I am transmitting the statement showing the apportionment population for each of the 50 states on April 1, 2020, as ascertained by the Twenty-Fourth Decennial Census of the United States.

The enclosed table shows the apportionment population for each state, the number of Representatives to which each state is entitled based on the apportionment population, and the change (if any) since the 2010 Census in the number of Representatives for each state. The population of the District of Columbia is not included in the apportionment population.

The United States Census Bureau prepared these calculations using the existing size of the U.S. House of Representatives ( 435 members) and the Method of Equal Proportions, as provided for in Title 2, United States Code, Section 2a, enacted in 1929 and thereafter amended, as well as Title 2, United States Code, Section 2b, enacted in 1941. Under Section 2a, you are to send this information to the 117 th Congress.

Enclosure
