Chairman Carr, this is Alex Werpin from The Hollywood Reporter. I wanted to see if you had any thoughts or reaction to the decision by ABC to suspend jimmy Kimmel's show. I know you had suggested it might be warranted earlier.

...

I want to thank Nexstar for doing the right thing. Local broadcasters have an obligation to serve the public interest. While this may be an unprecedented decision, it is important for broadcasters to push back on Disney programming that they determine falls short of community values. I hope that other broadcasters follow Nexstar's lead.
